Wisconsin Circuit Court Access

Access to the public records of the Wisconsin circuit courts

This website (WCCA) provides access to certain public records of the Wisconsin circuit courts. The information displayed is an exact copy of the case information entered into the circuit court case management system by court staff in the counties where the case files are located. The court record summaries viewed here are all public records under Wisconsin open records law.

Please read this agreement prior to using the WCCA website:

The data available on the WCCA website is limited in the following ways:

1. Case information is uploaded to the WCCA website hourly unless periodic maintenance is being performed or the site is experiencing technical problems. The WCCA website information is accurate as of those updates. The WCCA program may be down for maintenance every night from 3:00 a.m. to 4:00 a.m. Central Time.
2. Each county began using the circuit court case management system at different times and made independent decisions about the conversion or backloading of old cases. Converted cases may display less information.
3. Records not open to public inspection are not displayed on the WCCA website. Confidential court records include adoptions, juvenile delinquency, child protection, termination of parental rights, guardianship, and civil commitments.
4. The official judgment and lien docket is located in the office of the clerk of circuit court for each county. Although WCCA is not the official judgment and lien docket, it does accurately reflect the information entered into the circuit court case management system for that purpose.

Please indicate that you have read the above and agree to the use of the WCCA website subject to the above terms and understand the limitations of the circuit court case management database.
